

D.P JITHIN

Computer Science Engineering Student — Data Science

Devachalla, Sullia | +91 8088786116 | jithindeva12@gmail.com | LinkedIn: [Jithin Deva](#) | GitHub: [jithindeva](#)

SUMMARY

Computer Science Engineering student specializing in Data Science with hands-on experience as a Full Stack Web Developer intern, building end-to-end web applications using Java, Python, and JavaScript. Skilled in frontend and backend development, database management, and REST API design. Passionate about web development and AI/ML, eager to contribute to impactful, production-ready applications.

SKILLS

Programming Languages: Python, JavaScript, SQL

Frontend: React.js, HTML5, CSS3

Backend: FastAPI, Node.js, Express.js, REST APIs

Databases: PostgreSQL, MySQL, MongoDB

Developer Tools: Docker, Git, GitHub

EXPERIENCE

Java Full Stack Web Developer Intern — Tap Academy *Present*

- Undergoing hands-on training and building full-stack applications using Java, Spring Boot, HTML, CSS, JavaScript, and SQL as part of an industry-aligned Java Full Stack Web Development program.
- Working on real-world projects covering both frontend and backend development, REST API integration, and database design, alongside coding practice on problem-solving platforms.
- Practicing data structures, algorithms, and OOP concepts in Java to strengthen problem-solving skills, and gaining exposure to Git version control and Agile-based project workflows.
- Building and testing RESTful APIs with Spring Boot, and connecting them to MySQL databases to handle CRUD operations for full-stack applications.
- Collaborating with peers on mini-projects and code reviews, following industry-standard coding practices and version control workflows using Git and GitHub.

PROJECTS

Resume Analyzer

- Built a web application that analyzes uploaded resumes to extract skills, qualifications, and keywords — helping recruiters shortlist candidates efficiently and enabling job seekers to optimize their resumes.
- Tech stack: JavaScript, Node.js, MongoDB, HTML, CSS.

YouTube Watch History Analyzer and Recommendation

- Developed a platform that analyzes users' YouTube watch history to provide personalized video recommendations, cluster videos by skill domains, summarize content, and track learning patterns.
- Tech stack: JavaScript, React.js, Node.js, MongoDB, Python.

Portfolio Website

- Designed and built a personal portfolio website showcasing projects, skills, and professional information with interactive elements and responsive design.
- Tech stack: HTML, CSS, JavaScript — hosted on GitHub Pages and Netlify.

EDUCATION

B.E. — CSE (Data Science)

Vivekananda College of Engineering and Technology, Puttur 2022 – Present | CGPA: 7.14

Pre-University (PCMS)

SDM PU College Ujire, Belthangady 2020 – 2022 | Percentage: 63%

SSLC

K.S Gowda English Medium School, Ninthikallu 2020 | Percentage: 77%
